

Twenty-Five Years of Oil Spills

Spills happen...and our waters are no exception...

Proposed new regional oil export facilities would balloon oil tanker traffic in our local waters...

Who profits, and who takes the risk?

Olympic Climate Action presents:

“Oil in Our Marine Waters”

Friday, July 11, 2014 – 7 pm

Port Angeles City Council chambers

321 W. 5th St.

The Big Fix, a Cannes Film Festival official selection, explores the BP Gulf oil spill of 2012—its causes, consequences, and cover-ups. This is the industry that wants to ship toxic tar-sands oil through our local waters.
